

Health, Safety, Security & Environment Commitments

At China Offshore Oil Corporation E&P Mexico, our objective is to operate in a safe, clean, and socially friendly manner to achieve sustainable development and achieve the Company's target of world class Health, Safety, Security and Environment (HSSE) performance with zero accidents. We adhere to a clean and safe development philosophy, embrace the CNOOC safety culture and core HSSE value of "Safety First, Environment Paramount, People Centric and Equipment Integrity", follow international Best Practices and continuously improve the HSSE management system.

Our commitments:

- Leadership shall lead an example in Company HSSE management and be committed to the promotion of a safety culture.
- The Company's activities shall comply with applicable HSSE Regulatory Requirements.
- The HSSE Management System and supporting safe work practices shall be developed, implemented and reviewed for Continuous Improvement.
- A safe and healthy working Environment shall be established, promoted and continuously improved upon to prevent occupational injuries and illnesses.
- All Major HSSE Accident Hazards shall be identified, evaluated, and managed to minimize the Risk throughout the Full Asset Life Cycle.
- All HSSE related Policy Statements, Business Processes, Standards, and Procedural Aids shall be met or exceeded by all Contractors and their Subcontractors undertaking work for the Company.
- HSSE related Records, Business Processes, Standards and Procedural Aids shall be documented, maintained, shared and reported.
- Training programs shall be developed and implemented, throughout the Company, to promote awareness of HSSE principles and ensure Competence among Employees responsible for HSSE objectives.
- Process Safety shall be systematically managed.
- Emergency Preparedness and Response Plans shall be established, implemented, documented and regularly tested
- HSSE incidents shall be promptly and effectively reported and investigated with appropriate actions taken and findings shared to prevent recurrence.
- Lessons Learned from HSSE Events and Industry Best Practices shall be captured, shared and incorporated into existing business practices.
